

## LET US PRAY FOR PEACE

Peace and every good thing to everybody!

I would like to remind you, that today is the day, consecrated to the fasting and prayer for peace in the World, especially in Holly Land. Let us ask the Lord to open the hearts of those who are responsible for the wellbeing of the world to the only real good, which is God himself. God in all human hearts, especially those who suffer.

All humanity needs peace. Every human being needs peace. It may seem that the war is far away, but in a very tragic way it touches everybody of us. Because we are one family. And we should be one family, caring for each other. At the end of our life we will be asked: “Where is your brother, where is your sister?” Let us care for peace let us do it with whole our heart.

*O most Holly heart of Jesus, transpierced because of our sins,  
have mercy of those who are suffering!  
Virgin Mary, Mother of peace, pray for us!*

Izmir, 17.10.2023, Saint Ignatius of Antioch
